DETAILED ACTION

The following office action is in response to amendment filed on March 26, 2009. Claims 1, 3, 8, 11, 12, 17 and 18 have been amended. Claims 1-3, 5-14, 17-20 are pending. Claims 4, 15 and 16 have been cancelled.

Allowable Subject Matter

1. Claims 1-3, 5-14, 17-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to independent claim 1, the prior art of record do not teach a computer annotator system for accessing internet data addresses, the system comprising an electronic tablet having a screen with plural predefined regions that receive handwritten mnemonic symbols at random locations on the electronic tablet, the handwritten mnemonic symbols are hints for different internet data addresses.

With respect to independent claim 5, the prior art of record do not teach a method for indexing computer accessible internet sites, the method comprising associating an address indicative of the first of said sites with a first location coordinate address on a computer writing tablet, separate from said electronic device, via a first handwritten mnemonic symbol that is a user recognizable hint for the first of said sites, the hint for the first of said sites being on a first random location on said writing tablet during access of said first of said sites.

With respect to independent claim 8, the prior art of record do not teach a method for using a computer writing tablet, the method comprising: when each of a plurality of internet associated computer data addresses is accessed on a computer separate from the computer writing tablet, writing a mnemonic object at a random location on said computer writing tablet,

Art Unit: 2629

wherein the random location on said computer writing tablet of the mnemonic object becomes an index of an internet address and the random location is coupled to a current one of said internet associated computer data addresses and said mnemonic object is handwritten and a user recognizable hint for the current one of said internet associated computer data addresses such that clicking on the mnemonic object navigates the computer to the internet address.

As to independent claim 11, the prior art of record do not teach a computerized method comprising; receiving a handwritten symbol for the internet site at a random location on a screen of a computer writing tablet that is separate from the electronic device, the handwritten symbol being a user recognizable hint for the internet site; creating an index of a Uniform Resource Locator (URL) for the internet site from geometric coordinates of the handwritten symbol at the random location on the screen; and selecting the handwritten symbol at the geometric coordinates on the screen of the computer writing tablet to cause the electronic device to navigate to the internet site.

With respect to the dependent claims 2, 3, 6, 7, 9, 10, 12-14, 17-20, these claims are allowed as they depend upon an allowed base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
